IMPORTANT

READYTV IS A DIGITAL BROADCAST SERVICE. YOU **MUST** USE AN ANTENNA WITH YOUR READYTV DIGITAL BOX TO FIND OUR SIGNAL AND TO ACCESS OUR SERVICE INCLUDING THE **10 FREE** DIGITAL HDTV CHANNELS.

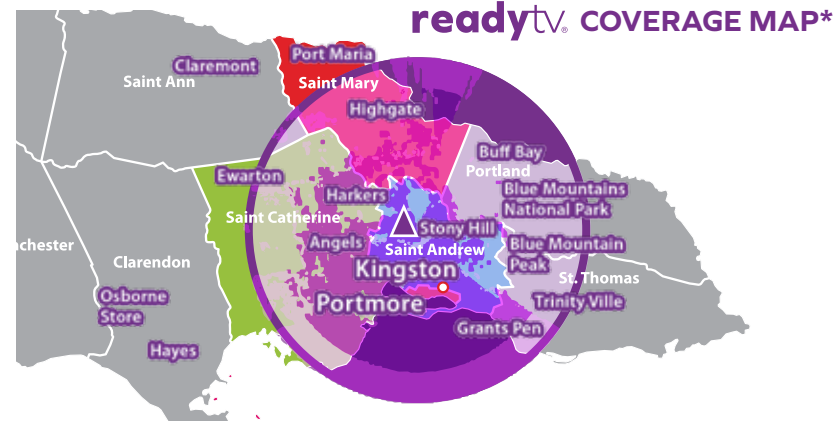

Indoor Antenna

While your Prepaid TV Starter Pack includes a basic indoor antenna to help get you started, **we strongly recommend using an outdoor antenna** to optimize your viewing experience. An outdoor antenna will overcome most signal interference issues you might encounter, including distance from our broadcast tower, obstructed lines of sight, hilly terrains, buildings or environmental factors.

Outdoor Antenna

There are many types of powered and unpowered UHF outdoor antennas that will work with your **readytv** digital box. Always check the manufacturer's label to ensure the antenna covers the UHF 470-862MHz frequency range.

* COVERAGE IS NOT GUARANTEED
Call 1-888-429-5RTV (788) to find out if we have coverage in your area
